THE MAYOR'S CORNER

Dear Residents,

It's hard to believe that it is September already! Well the kids are back in school, and the streets are a little less busy during the day. But please remember that we share the roads with pedestrian traffic. While driving in our city, please be courteous and safe, obey the speed limits and watch for our kids and neighbors sharing the road.

Hurricane season is in full swing and we have three named storms brewing as I write this letter. Historically, September has the most storm activity. This is a great reminder to all of us to clean up debris in our yards, trim our trees and be prepared with a plan in the event of a storm. We still have a few more months of hurricane season ahead of us. If you are not sure how to be prepared please do not hesitate to call City Hall or our Police Department for assistance.

The 2016-2017 budget has been discussed and worked through by your council several times throughout the past couple of months. We have a proposed tax rate of 7.9000 which is the same as last year. If nothing else changes this will be set this month at our Budget Hearing on September 14th. I would like to thank our City Manager Mo Thornton and the staff for their hard work in getting us to a workable and fiscally responsible budget. We have completed a lot of work throughout the last couple of years and have several projects still to come in this upcoming budget including more road work.

There was a great deal of discussion at the last Council Meeting about code enforcement and how we handle or should continue to handle certain issues. The City has two officers assigned for code enforcement, which they perform while they are on their regular shifts. They handle multiple code issues regularly throughout the year very well. The City typically issues "Reminders" about dirty roofs, driveways, patios, etc., which are usually sent by mail after the rainy season in October. I think this is a good rule of thumb to follow as once these areas are cleaned they will stay cleaner longer without all of the moisture creating more mold. The codes are set to "minimum property standards," and once our code enforcement officers have determined that something is out of compliance, a letter of reminder is sent to your home. The majority of Atlantis residents take great pride in their homes/property and care for them beyond the minimum standards. However, a reminder is just that — a reminder. This is a good time to take a look at your property and see if there is something that needs attention or may be out of compliance. Please be proactive and not reactive. Don't wait for a letter from the City. This can only help to maintain a higher standard. If you have any questions or concerns, feel free to contact City Hall or the Police Department.

**Serving proudly,
Mayor David Kintz**

Manager's Notes August 2016

I offer my sincere thanks to those residents who take pride in their homes and whose homes are perfectly maintained all year-round. It is so important to our community to present our properties with a neat and clean appearance. A well maintained community increases property values to the community as a whole. Our code enforcement officers will be coming through the community soon to review property to our minimum property standards. Don't wait for the code officer to arrive to look at your property and do the maintenance that needs to be done. The following are some of the things we will be looking at.

Is your roof clean? If not schedule an appointment with a pressure cleaning company.

Is your driveway clean and in good condition? If not, have it cleaned.

Are there weeds in the driveway? If so, you can obtain weed removal products at the local home improvement store.

Is your driveway faded? Seal coat, stains and paint products are available to correct this as well.

Does your driveway have broken areas and or potholes? You should probably consider replacing the driveway.

Is there dead or dying vegetation in your yard? If so remove the old vegetation and replace it with new plantings.

Does your lawn have healthy green grass? If not, replace the dead and weedy areas with sod. Make sure your irrigation system is in good working order and the grass has proper watering coverage. Feed your lawn and shrubs with a good quality fertilizer.

Are there rust stains on the house or driveway? Rust control products are available at the local home improvement store.

Is the paint on your home in good condition? Touch up those areas that are faded and peeling. If this is the majority of the home, repaint. Painting does require a permit.

A well thought out maintenance plan will help you provide regular maintenance to your property and keep you one step ahead of the code enforcement officers.

As always, I can be reached at City Hall or via email at mthornton@atlantisfl.gov.

Mo Thornton, City Manager

City News...

The City of Atlantis Council Meeting was called to order at 7:00 p.m. on August 10th.

Resolution 16-12, authorizing the Mayor to sign a protective service agreement with Securitas Security Services USA for gatehouse security for one year, passed 5-0. The contract year, October 1, 2016 to September 30, 2017 will cost a total of \$321,065.20.

In Miscellaneous Business, Executive Director Mark Bannon of the Palm Beach County Commission on Ethics and Area Liaison/Investigator Anthony Bennett presented themselves to the Council. They asked Council to please use their services for advisory opinions, enforcement, and training when needed.

Community Safety through Community Awareness and Involvement:

BACK TO SCHOOL TRAFFIC SAFETY TIPS

FDOT Encourages All to be Cautious as Students Return to Class

The Florida Department of Transportation (FDOT) and our Community Traffic Safety Team (CTST) partners remind motorists to take extra traffic safety precautions as students head back to school in Palm Beach County today August 17, 2010. The beginning of the school year is a time when children are at increased risk of transportation-related injuries from pedestrian, bicycle, school bus and motor vehicle crashes.

FDOT offers the following tips for making back to school commutes safer for motorists and students.

Tips for Motorists

- Slow down and obey all traffic laws and speed limits.
- Be alert for reduced speed limits in designated School Speed Zones.
- Watch for school buses. Red flashing lights and an extended stop arm indicate the school bus is stopping to load or unload children. Know and follow the state law that requires you to stop. (See info on this link: <https://www.flhsmv.gov/safety-center/vehicle-and-child-safety/child-safety/.http> Keep an eye out for children riding their bicycles or walking in the street, especially where there are no sidewalks.
- Be alert for children playing and gathering near bus stops and for those who may dart into the street without looking for traffic.
- When backing out of a driveway or leaving a garage, watch for children walking or biking to school.
- When driving in neighborhoods or school zones, watch for young people who may be in a hurry to get to school and may not be thinking about getting there safely.

Tips for Parents

- Be a good role model. Always buckle up in the car, always wear a helmet when biking and always follow pedestrian safety rules. Do not text or talk on your cell phone while driving.
- Supervise young children as they are walking or biking to school or as they wait at the school bus stop.
- Provide your children with bright clothing so motorists can easily see them. Add reflective markings on backpacks.
- Make sure your child is properly buckled up in a weight-appropriate child safety seat in the back seat.
- Make sure that your teen driver understands and obeys all state traffic laws.

Cont. Page 4

Tips for Students

- Always buckle up when riding in a car. Be sure to remove your backpack before getting in the vehicle. Never buckle your safety belt with your backpack on.
- Always ride in the back seat. It's the safest place for young people.
- Always wear a helmet and follow traffic safety rules when riding your bike.
- If you ride a school bus, learn and practice the safety rules for waiting at the bus stop, getting on and off the bus, and riding the bus. Never wait for the school bus in the roadway.
- If you walk to school, learn and practice the safety rules for pedestrians. It's extremely important for you to use the sidewalk when available, *look left-right-left* when crossing the road, and always walk facing traffic.
- Always cross at crosswalks, obey all traffic signs, traffic lights and crossing guard instructions.
- Teen drivers should avoid speeding and minimize distractions (texting, talking on cell phones, eating, adjusting the radio) while driving. Teens are also reminded never to overload their vehicle; everyone riding in a vehicle must use a safety belt.
- Be a good role model for your younger brothers and sisters and friends, and help them learn and follow vehicle safety rules.

Additional information can be found at: <https://www.flhsmv.gov/safety-center/vehicle-and-child-safety/child-safety/>.

3rd Annual Fine Arts & Crafts Sale and Show *Just in time for Holiday Gift Giving!*

When: Thursday, November 10, 2016

Time: 4-8 PM

Where: Atlantis Country Club

Local artists will exhibit watercolor and oil paintings, notepaper, scarves, woodworking, jewelry, fused glass, photography, and maybe some surprises, like last year's reindeer and holiday decorations! We're having another fun raffle, too.

We're happy to report that proceeds from the raffle will benefit the Michael Emmons Kidney Transplant Fund. Michael has been a dispatcher in our Police Department for more than 20 years; we want to help him with expenses for the medical care he needs.

For additional information, contact Mo Thornton at 561-965-1744 (or mthornton@atlantisfl.gov).

Hope to see you there!

Spotlight on Michael LaCoursiere, City Council Member

Mike is no stranger to Atlantis. Born in Sault Ste. Marie, Michigan, he lived in Sioux City, Iowa until he was 8. His family moved to Atlantis in 1970, and he's been here ever since. Mike graduated from Lake Worth High School, where he was a member of the National Honor Society. He attended the University of Florida in Gainesville, and earned a Bachelor of Science Degree in Civil Engineering.

What did you like best about growing up in Atlantis? I had many friends and we had lots of space to roam and play. There were many things to do and enough kids to choose teams for basketball, football, or whatever activity our imagination developed. We were free and safe. A neat thing is many of my childhood friends still live here. I grew up with the Kintz kids among others. All the parents looked out for each other's kids and kept general order. We used to ride our bikes all over town and played in the woods before development of the Country Club and much of the west end of the City. I recall when there was no Glenbrook Drive, South Country Club and Muirfield Drives were un-joined dead ends and North Country Club Drive ended at Troon. We'd see Jackie Gleason at what is now Atlantis Golf Club. While in high school I worked in the bag room at the Country Club and played a lot of golf.

After you graduated from College, what did you do? I joined an engineering consulting company in 1984, and I never left. I am Vice President of Michael B. Schorah and Associates, Inc., Engineers, Surveyors and Land Development Consultants. Our consulting services focus on design and permitting of private residential/commercial development and governmental infrastructure. We prepare design for everything from the ground down—like sewer, drainage, roads, and flood protection. Much of our work involves interfacing with government agencies to process permit applications, comply with zoning/development codes and other regulations that affect community development.

What about your family? My wife, Dr. Sandra Spender, is an optometric physician. She grew up on High Ridge Road, so she's a local too. Sandy is a breast cancer survivor and former Chair of the Komen Foundation Race for the Cure in West Palm Beach. We have 15-year old twins, Andrew (AJ) and Allison. I remember when I heard that I was going to be their Dad...I was on the 11th green at the Country Club when Sandy called to tell me...I missed the putt!

AJ is a sophomore at Suncoast Community High School in Riviera Beach. He's enrolled in the International Baccalaureate Program, and just qualified for a spot on the varsity golf team. Last year he participated in Robotics Club and related competitions. The team progressed to the final 32 in last year's world championships held in St. Louis, Missouri.

Allison (Ally) attends Lake Worth Christian School. She is a member of the varsity cross-country team and active in the Faith in Action program. Allison babysits, works in her mother's office and likes to cook and bake. She is active in the youth group at Journey Church.

They have lots of friends from school and Atlantis, just like I did. It's still a great place to raise a family. The kids do a lot of the same things I did, and their friends' parents keep an eye on them. My mother still lives on Sudbury Drive, Sandy's mother lives on North Country Club Drive and Sandy's sister and brother-in-law live on Atlantis Boulevard. It is great having family nearby. It has allowed AJ and Ally to have a fun, safe and comfortable place to grow up.

Spotlight on Michael LaCoursiere, City Council Member

What do you like to do in your spare time? Do you have any hobbies? Like to travel? With work and 2 teenagers, I don't have a lot of spare time. I guess my hobby is parenting. Every summer we go to Maggie Valley in North Carolina, I play golf with AJ, and we drive the kids everywhere all year long! We went on a terrific family vacation in Europe this summer. We took a bicycle tour along the Rhine River from Cologne to Mainz, spent a few days in Paris, took the "Chunnel" train to London, saw the sights and flew home. It was a great experience for all of us.

Sandy and I like to eat at different restaurants in West Palm, Lake Worth or Delray Beach with friends, family, or just the 2 of us. Sometimes on the weekends we ride our bikes and go out for breakfast—a good way to enjoy a meal, see the sights and get some exercise, too!

From 2009-2014 I served on the Lake Worth Christian School Board of Directors. My term included four years as President. The Board is a policy making group with budgetary responsibilities. That experience provided direct experience for my current Council duties.

You were on the City's Board of Adjustment before you were appointed to City Council in January of this year. What does the Board do? The Board reviews applications for variances from city ordinances. They usually involve setbacks, or in the case of our commercial properties, variances in signage or other rules. As I have encountered in my professional life, no code of ordinances can account for all possible cases. The variance process allows applicants an opportunity to vary from adopted rules as long as the justification is reasonable and not a detriment to the neighbors or City as a whole.

What do you see as the top priorities for Council this year? Maintaining our way of life and supporting property values. We want our policies and projects to enhance the safety and security of our residents, and keep up the appearance of the City. We have a fabulous Police Department, and we're reviewing projects that consider fencing, landscaping and lighting to enhance our security systems. The Council is developing long term plans to address our infrastructure, too. Constant attention to our roads, public buildings and utility systems is important. We're also looking at our code enforcement system to ensure that properties are in good shape year-round. It's important to protect our residents' investments in their property, and we want to be good stewards of their tax money.

How do you see the City changing? How do we get ready for those changes? For one thing, the City is almost completely developed. Many of our homes are 50 years old. I can envision future rebuilding to reflect changes in lifestyles over the past half century. New families are moving to Atlantis and are working diligently to modernize their properties. I recently attended a neighborhood party that involved couples from about a dozen households along Orange Tree Drive. Most had only lived here a couple of years or less. New people bring ideas and changes. Determination of what suits the community as a whole is a continuing effort.

The area around us is changing, too. We have read about potential changes to uses at John Prince Park, including Spring Training baseball and a homeless center. The airport has long desired commercial development along Congress Avenue. There will probably be a lot more development along Military Trail and the Council will have to work with the City of Greenacres and Palm Beach County to better understand and influence, if possible, what happens along our borders. Because we're such a small city, proactive efforts with our neighboring jurisdictions are necessary. We will have our voice heard and be as influential as we can. Atlantis has always been a wonderful place to live and raise families. We plan to keep it that way!

Atlantis Literary Society

It's hard to believe that in two months, we will be back in Atlantis!! Summer sure has flown by!! Please MARK YOUR CALENDAR FOR NOVEMBER 16th, the date of our first meeting! Our book in November will be **"Circling the Sun"** by Paula McLain. This is a very good story of the life of woman living in Africa who was one of the pioneers of aviation. Please plan to join us at 9:30 that day for a continental breakfast and getting together with old friends.

Please remember to bring with you the names of any books you've read over the summer that you think others might enjoy reading. Since the last newsletter, I have read a couple you might enjoy. **"A Man Called Ove"** is a book by a Swedish author, Fredrik Backman, which has been nicely translated into English. Ove is a "curmudgeon." He is a man who lost his wife a few months before, and wants to kill himself so he can join his deceased wife. It is a touching story, but one that makes you laugh out loud. I have yet to meet anyone who has not enjoyed the book! Two others that were light summer reads were **"Everything We Keep"** by Kerry Lonsdale and **The House By The Lake** by Ella Carey. Currently I am reading **"America's First Daughter"** by Stephanie Dray and Laura Kamoie, about the oldest daughter of Thomas Jefferson who had to take over a lot of the social responsibilities of her deceased mother as her father served as the U. S. representative in France and later as President. Any of you who enjoy historical fiction will probably enjoy this book.

Enjoy the remainder of your summer.

Sally Thompson

2017

Homestead Exemption Outreach

1st Tuesdays of Oct., Nov. & Dec.

10:30—11:30 Atlantis Council Chambers

The Property Appraiser Office will take your 2017 Homestead Exemption Application and answer valuation questions.

A copy of your deed and proof of residency is required. You may submit a copy of your Florida driver's license, voter's registration or permanent residency card. In lieu of a pending permanent resident alien card, we will accept Federal Form I485.

Presented as a Public Service by the Education Services Division of the PBC Property Appraiser's Office.

Questions? Please contact Mike Pratt at 561-355-4021 or mpratt@pbcgov.org

Emergency Notification System and Resident Directory Update

The City of Atlantis uses an Emergency Contact software system which enables emergency and other various city alerts to be sent via text, email and phone. This service is available to all residents and requires you to sign up. There will also be a website where contact information can be added or edited. Please supply your information for the database on this form to be returned to the Police Department or sent by mail or fax to 561-968-9443 or by email to mlegal@atlantisfl.gov

This information is also used to update your Directory information.

Mosquito Bite Protection in Florida

FloridaHealth.gov Florida Department of Health 561-840-4500
www.cdc.gov/features/StopMosquitoes

Not all mosquitoes are the same. Different mosquitoes spread different diseases and bite at different times of the day. Some mosquito species bite during the day, such as those mosquitoes that can spread chikungunya, dengue, and Zika viruses. Other species of mosquitoes bite most often at dawn and dusk, including those that can transmit West Nile Virus.

Mosquitoes can live indoors and will bite at any time, day or night.

Use Environmental Protection Agency (EPA)-registered insect repellents	Use repellent with one of these active ingredients	BRAND EXAMPLES
<p>Wear repellent when you are outdoors. Use products with active ingredients that are safe and effective.</p> <ul style="list-style-type: none"> Always follow the product label instructions Do not spray repellent on skin under clothing If you use sunscreen, put sunscreen on first and insect repellent second. It is safe for pregnant or nursing women to use EPA-approved repellants if applied according to package label instruction. Learn more: www2.epa.gov/insect-repellents 	DEET	Off!, Cutter, Sawyer, Ultrathon
	Picaridin (KBR 3023), Bayrepel and icaridin	Skin So Soft Bug Guard Plus
	Oil of lemon eucalyptus (OLE) or para-menthane-diol (PMD)	Repel
	IR3535	Skin So Soft Bug Guard Plus Expedition, Skin Smart
If you have a baby or child:	Cover up with clothing	
<ul style="list-style-type: none"> Always follow product instruction when applying insect repellent to children. Spray insect repellent onto your hands and then apply to a child's face. Do not apply insect repellent to a child's hands, mouth, cut or irritated skin. Do not use insect repellent on babies younger than 2 months. Dress babies or small children in clothing that covers arms and legs. Cover cribs, strollers, or carriers with netting 	<ul style="list-style-type: none"> Wear long-sleeved shirts and long pants Mosquitoes can bite through thin clothing. Treat clothes with permethrin or another EPA-registered insecticide for extra protection 	
	<p>Use permethrin-treated clothing and gear</p> <ul style="list-style-type: none"> Permethrin is an insecticide that kills mosquitoes and other insects Buy permethrin-treated clothing and gear, or use permethrin to treat clothing and gear – follow product instructions closely Do not use permethrin products directly on skin 	

Keep mosquitoes **outside**

- Keep screens on all windows
- Repair holes in screens
- Keep doors and windows shut
- Use air conditioning

Stop mosquitoes from **breeding**

Mosquitoes breed by laying eggs in and near standing water. As little as one teaspoon or bottle cap of water standing for more than one week is enough for mosquitoes to breed and multiply.

At your house or business:

Put away items that are outside and not being used because they could hold standing water.

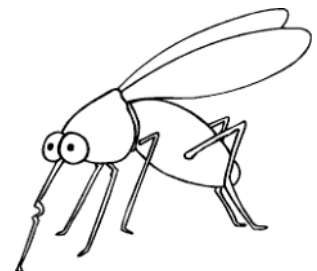

In your garden:

Keep flower pots and saucers free of standing water. Some plants, such as bromeliads, hold water in their leaves—flush out water-holding plants with your hose once a week.

Around all buildings:

At least once a week, empty, turn over or cover anything that could hold water:

Tires	Boat or car covers
Buckets	Roof gutters
Toys	Coolers
Pools & pool covers	Pet dishes
Birdbaths	
Trash, trash containers and recycling bins
